The **Facilities Charges** are the ongoing costs associated with a capital investment. The costs include OMAG, taxes, and (if funded by the customer) capital replacement cost, and (if funded by the Company) a return on and return of capital over the life of the facility.

If the revenue from the customer does not cover these costs (the Facilities Charges) then the line has to be funded by revenue from other customers, thus causes an increase in rate base. To protect against rate inflation due to line extensions, the Utah Public Service Commission has authorized the Company to require Customers to pay the ongoing costs (the facilities charges), less applicable revenue credits. This is done by the means of a "Contract Minimum Bill".

The Contract Minimum Bill is the greater of (as defined in the tariff):

- (1) 100% of Usage, or
- (2) 80% of Usage plus the Facilities Charges

The Contract Minimum Bill can also be given as:

- (2) 100% of Usage, plus the Facilities Charge less a 20% of Usage credit (up to the amount of the Facilities Charge).

These two equations are exactly the same.

- (1) Subtracts 20% of usage (from 100% of usage to arrive at 80%).
- (2) Subtracts 20% of usage (from the facilities charge).

in both cases there is a 20% usage credit.
