
**TOOELE COUNTY
CHAMBER OF COMMERCE
& TOURISM**

Date: April 30 2013

Dear Planning & Zoning commission

The Tooele County Chamber of Commerce was excited to hear that Energy of Utah has been looking at Tooele County for their next wind farm project. We feel as the business community, that this would be a profitable opportunity for both the County along with Energy of Utah as a Company. Here is a chance to have a reputable company in our wonderful County provide employment and long term funding to our County.

Jared Hamner

Executive Director

Tooele County Chamber of Commerce
